

Teresa Kirk Workshop:
Members: \$350 Non-Members \$395

In this workshop students will do exercises that will help them to make their own unique marks as a surprise element for their work. You will build upon that mark making process through negative painting, color mixing and design formats. Students will play with these ideas along with the possibilities that will open as they work transparently and with opaque paint in watercolor and gouache. This workshop will engage your intuitive creativity. Demos, group discussion and constructive critiques along with painting time are a part of this workshop.
